## DATA SHEET

### Over Wrapping Machine, Model LE 150

#### Technical Specification:

- |  |   |
|--|---|
| ➤ <b>Start – stop</b>                    | Soft start and soft stop in 0 positions                     |
| ➤ <b>Size of pack (L x W x H)</b>        | (80-200 x 10-75 x 40-80mm)                                  |
| ➤ <b>Machine Size (L x W x H)</b>        | (3990mm x 1650mm x 1650mm)                                  |
| ➤ <b>Machine Weight</b>                  | 800 kg  |
| ➤ <b>Reel (Max outer dia / core dia)</b> | 300 / 75 mm   |
| ➤ <b>Input (Conveyor) Length</b>         | Standard, 114”  |
| ➤ <b>Machine Capacity</b>                | up to 150 packs / minutes                                   |
| ➤ <b>Electric Motor</b>                  | (1) 1 hp. (2) 0.5 hp  |
| ➤ <b>Machine Load</b>                    | 10amp (2kw)   |
| ➤ <b>Standard Equipment</b>              | Photo Electric Eye & Invertor                               |
| ➤ <b>Packing Material</b>                | Liquid over Wrap  |
| ➤ <b>Voltage and frequency</b>           | 220vac, Single Phase, 50 Hz                                 |
| ➤ <b>Usage / Application</b>             | Face wash Sachet, Hair Color, Hair Remover,<br>Bleach Cream |
| ➤ <b>Weight of Packing Material</b>      | 2gm to 400gm  |
| ➤ <b>Sealing Type</b>                    | 2 Side and Centre Sealing                                   |
| ➤ <b>Heaters size</b>                    | 4” to 6”  |
| ➤ <b>Condition</b>                       | Brand New   |

## DATA SHEET

### Control panel:

Our **Overwrapping Machine with Manual Control System** is designed for reliable and efficient packaging of a wide range of products such as Bleach Cream, Hair Removal, and Hair Color. This machine operates through a **manual control system**, allowing the operator to easily adjust speed, temperature, and film length as per product requirements.

### Description:

We offer machines in various specifications and can be customized as per the particular requirements of clients.

1. Machine can finish the function of net metering, selling, cutting, counting, measuring and filling.
2. We are designed to increase the efficiency and decreasing the chances of any contamination with the product.
3. Human-machine operation, convenient and quick parameter setting.
4. Simple driving system, reliable working, convenient maintenance.
5. Simple machine structure with flexible wheels, easy to maintain or change location.
6. Suitable for a wide variety of flexible packing material, packing size and products.
7. Sound level of machine is < 70db

S No	Features	Optional Features
1	Strong Design	Control panel PLC based
2	Optimum Performance	Expiry Date Printer
3	High Durability	Magazine for Stretch
4	Metal steel	Nitrogen Filling System
5	Power full conveyer	Stainless Steel Material
6	Operator can set filling time
