

DATA SHEET

Candy Packing Machine, Model LE 800

Technical Specification:

➤ Start – stop	Soft start and soft stop in 0 positions
➤ Machine Weight	1400 kg
➤ Reel (Max outer dia / core dia)	280 / 70 mm
➤ Machine Capacity	up to 800 packs / minutes
➤ Electric Motor	(1) 2hp (3phase) (2) 0.5hp
➤ Machine Load	15amp (2.8kw)
➤ Standard Equipment	Photo Electric Eye & Invertor
➤ Packing Material	Food
➤ Voltage and frequency	440vac, three phase, 50 Hz
➤ Usage / Application	Candy
➤ Weight of Packing Material	2gm to 200gm
➤ Sealing Type	2 Side and Centre Sealing
➤ Heaters size	4” to 6”
➤ Condition	Brand New

DATA SHEET

Control panel:

The **Candy Pillow Packing Machine with Manual Control System** is specially designed for efficient and hygienic packaging of candies, toffees, chocolates, and similar confectionery products. It features a **manual control panel**, allowing operators to easily set and adjust **packing speed, temperature, and film length** according to product size and packaging requirements.

Description:

We offer machines in various specifications and can be customized as per the particular requirements of clients.

1. Machine can finish the function of net metering, selling, cutting, counting, measuring and filling.
2. We are designed to increase the efficiency and decreasing the chances of any contamination with the product.
3. Human-machine operation, convenient and quick parameter setting.
4. Simple driving system, reliable working, convenient maintenance.
5. Simple machine structure with flexible wheels, easy to maintain or change location.
6. Suitable for a wide variety of flexible packing material, packing size and products.
7. Sound level of machine is < 85db

S No	Features	Optional Features
1	Strong Design	Control panel PLC based
2	Optimum Performance	Expiry Date Printer
3	High Durability	Record
4	Carbon Steel	Stainless Steel
5	Power full Conveyer	-
6	Operator can set filling time	-
